

**SBSN ADVISORY NO. 8**  
**SERIES OF 2022**

July 22, 2022

Dear Parents / Guardians:

A pleasant day to everyone.

During this pandemic period, prices of commodities such as gas and diesel have increased due to market uncertainty and economic problems. Prior to the pandemic period, the price of diesel was ranging from 37 to 40 pesos per liter. As of today, the price range of diesel is 77 to 81 pesos per liter.

Due to this, the school service fee will also increase. The increase will cover expenses such as but not limited to the diesel consumption of the school service, salary of drivers / backride, school service maintenance, LTO / LTFRB requirements, etc.

You may inquire / follow-up the Accounting Office regarding the new price of the school service fee based on your location.

Accounting Office: 0917-313-4657

Thank you and God Bless.
